

Code 549 Integration and Test Facility Crane Operator Authorization Policy

The Code 549 policy is that only GSFC certified crane operators that have authorization from the Code 549 Branch Head may operate cranes within the Building 7/10/15/29 Integration and Test (I&T) Complex.

All ManTech crane operators assigned to I&T operations within I&T Complex are authorized to operate facility cranes and must present a valid crane operators license at the Building 7 Thermal Vacuum Lab Shift Leader Station before filling out the log and having the crane key issued.

Non-ManTech GSFC certified crane operators needing to operate cranes within the I&T Complex shall request authorization from the Code 549 Branch Head via E-mail or hard copy. The following information shall be provided:

Name of Crane Operator:

Crane License Number and Expiration Date:

Crane Identification Number:

Time Period of Required Crane Operations:

Employer:

Project Name:

Description of the Required Crane Operations:

Name of Responsible GSFC Project Lead:

Upon Code 549 Branch approval, the Building 7 Thermal Vacuum Lab Shift Leader Station will receive authorization for those individuals.
